

## Eurocoin TITO Ticket/Note Counter

Eurocoin Note and TITO ticket counter/sorter is a high-speed, compact device that is ideal for busy count rooms & cash desks. The unit will accept mixed denomination notes and TITO tickets from a stacker or cash box, and provide a full value count for the entire batch.

The advance serial number recognition feature will both identify and eliminate any duplicate counterfeit banknotes, plus will allow the individual counting and recording of barcoded TITO tickets. All ticket and note data is exportable to a thermal receipt printer and/or your venue's host accounting system via LAN, USB or RS232. This is a cost-effective and feature-packed counter & sorter that will save a great deal of time and money in your operation.

### Features

- ▶ Counts, sorts & totals banknotes & TITO tickets
- ▶ Identifies serial number duplications
- ▶ Note fitness option
- ▶ Count speeds up to 1,300 notes/minute
- ▶ 4.3" colour TFT
- ▶ Networkable to LAN/USB/RS232
- ▶ Receipt printer output

Part No.  
45660519

Eurocoin TITO Ticket/Note Counter is **Playsafe Quantum** integrated and processes the **NEW UK Polymer Banknotes**

**Simple. Fast. Secure. Cost-Effective.**  
**And a time-saving revolution in your Count Room!**

The new Eurocoin TITO Ticket/Note Counter processes both notes and tickets, and updates your Playsafe system automatically.

- Simply take your cashbox stack of mixed notes and TITO tickets and the Eurocoin counter will count the notes at 1,300 per minute, and off-sort the TITO tickets. The note count is automatically updated to your Playsafe system.

- Then, re-insert the TITO tickets and these, too, will be high-speed scanned and read, giving you an instant value total, which also will be updated to your Playsafe system.

Repeat this process for each machine and you will have a full TITO and cash reconciliation in minutes, without any further need for slow, manual checking.

The Eurocoin Counter reads the serial numbered barcode on every TITO ticket it counts and automatically compares it to the master data file on your host TITO system. This unique 'Look Up' feature:

- provides an immediate record of all TITO tickets that have now been counted
- and automatically updates the ticket count to your Quantum system

# Eurocoin TITO Ticket/Note Counter

## Advanced Counterfeit Detection

- Enhanced Speedy Counter
- Serial Number Recognition (option)
- Serial number is recognized by using OCR (up to 1,000 notes/min)
